Guaranteed

**This Gift from Mother Earth is the supplement  
you've been looking for to top off  
all your health-conscious efforts!**

## Nutrient Absorption

Damaged GI tracts and low-energy cells can limit our ability to get nutrients where they're needed. As a result, our bodies simply don't function the way they should.

Fulvic molecules can recharge our cells allowing them to easily take in the nutrients they need and rid themselves of toxins. Plus, fulvic molecules can bind with nutrients in our GI tracts and help carry them to cells throughout our bodies. Humic molecules help ease the inflammation in the GI tract that interferes with absorption. \*

## Nutrient Replenishment

USDA data shows a steady and steep decline in the nutritional value of our crops. Today we simply can't get the same amount of essential vitamins and minerals from our food that we did 100 years ago because our soils are lacking the humic and fulvic responsible for getting nutrients into our crops.

Now, we can easily fill our nutritional gaps by taking a high-quality Humic and Fulvic supplement that contains the wide range of ionic minerals that we are missing in our foods. \*

## GI Health

Our digestive systems are under frequent attack by pesticide residues, medications, and poor food choices, but Humic and Fulvic can help.

Humic acid supports healthy bacterial balance by binding with harmful substances like glyphosate and by acting as a prebiotic fiber (food for beneficial bacteria). Humic may also help decrease the production of inflammatory cytokines (TNF $\alpha$  and IL-6). Additionally, laboratory studies have shown humic to provide electrochemical support to strengthen tight junction integrity. Weak tight junctions are recognized as a major cause of Leaky Gut. \*

## Detoxification

As our cells go about their daily tasks, they naturally create toxic byproducts. Healthy cells easily release these toxins so they can be removed from our bodies. Unfortunately, due to various causes, our cells may not be able to release these toxins.

Fulvic can help our cells open the doors and clear out all the junk that's slowing them down. At the same time, humic supports our gut microbiome which helps fight bacteria and viruses before they can enter the bloodstream. \*

*"I was having terrible debilitating inflammation, pain and stiffness, and water retention in both of my legs. I started taking the Humic/Fulvic in every glass of water and my legs function normally now. No pain. Excellent product."*

*-Melinda*

*"I've been taking the Humic & Fulvic for about two years now and I've seen remarkable improvement in my fingernails, toenails and hair. I really feel like it's giving my body what it's missing and I'm so grateful for that."*

*-Patricia K.*

<b>Supplement Facts</b>		
Serving Size: 1 Ounce		
Servings Per Container - 32		
	Amnt/Serv	% DV*
Humic & Fulvic Acids including natural plant-based macro and trace ionic minerals	1 ml	*
Other Ingredients: Purified water		
*Percent Daily Value not established.		

<b>Supplement Facts</b>		
Serving Size: 1 ml (Approx. 1 dropper)		
Servings Per Container - 120		
	Amnt/Serv	% DV*
Humic & Fulvic Acids including natural plant-based macro and trace ionic minerals	1 ml	*
Other Ingredients: Purified water		
*Percent Daily Value not established.		

<b>Supplement Facts</b>		
Serving Size 1 Capsule		
Servings Per Container - 90		
	Amnt/Serv	% DV*
Humic & Fulvic Acids including natural plant-based macro and trace ionic minerals	325 mg	*
Other Ingredients: Veggie Capsules		
*Daily Value not established.
